WAINWRIGHT, ALBERTA, WEDNESDAY, JANUARY 26th, 1944

\$2.00 Per Year In Advance

## Sale of Town Lots Approved By Town Council

This is the official record of the proceedings of the Council of the Town of Wainwright at its regular meeting in the council chamber at 8 o'clock, Jan. 18th, 1944.

The members of Council present were Mayor Middlemiss and Councillors Tory, Lissimore, Coleman, Cork, Robinson and Stafford.

The recorded proceedings of Council at its regular meeting of Jan. 14th were read and, on motion of Mr. Stafford, were adopted and confirmed as written.

A notice of admittance was received from the Royal Alexandra Hospital of Mrs. Edward (June) Cartier, and on motion of Mr. Stafford it was resolved that Council does not consider this an indigent case and therefore does not assume responsibility for this account.

On motion of Mr. Lissimore, it was resolved that communication from Mr. Sigurd Lefsrud, B.A., LL.B., re. Olsenberg case, be ordered filed and the Secretary instructed to reply to same stating that the Town of Wainwright accepts no responsibility for the property in question.

Resolved that Mr. J. C. Kelley, Salvage Officer, be advised that we are on motion of Mr. Robinson, it was not prepared at the present time to increase our offer for the water well situated on the SW Quarter of Section 32, Township 44, Range 6, West of the 4th Meridian.

On motion of Mr. Lissimore, the offer of Mr. Philip Pon to purchase Lot 4, Block 17, Plan 645V, for the sum of \$40.00 was received pending the final passing of the necessary bylaw.

The offer of Miss M. E. Carroll to purchase the property comprising Lot 16, Block 37, Plan 645Z, for the sum of \$22.50 came before Council, and on motion of Mr. Lissimore it was resolved that this be received, pending the passing of the necessary bylaw.

A report of the Public Health Committee was submitted to Council and on motion of Mr. Coleman it was resolved that this report, accompanied by New Scavenging Contract, be received and approved and that the recommendations contained in the report be endorsed by Council.

On motion of Mr. Stafford, that on account of the several charges necessitated through registrations of transfers, etc., the Sec. Treas. be authorized to establish a standing account with the Registrar at the Land

Titles Office, Edmonton, Alberta, by depositing with him the sum of \$25.

On motion of Mr. Tory, that assent be given to the introduction of a Bylaw concerning the sale of Lot 4, Block 17, Plan 645V, to Philip Pon of Wainwright, for the sum of \$40.

Bylaw No. 352 was then read for the first time on motion of Mr. Lissimore.

On motion of Mr. Coleman, Bylaw No. 352 was read the second time.

On motion of Mr. Stafford, it was resolved that assent be given to the introduction of a Bylaw concerning the sale of Lot 16, Block 37, Plan 645Z to Miss M. E. Carroll of Wainwright for the sum of \$22.50.

On motions of Mrs. Robinson and Cork respectively, Bylaw No. 353 was given its first and second readings.

On motion of Mr. Cork, it was resolved that this regular meeting of Council stand adjourned until Tuesday, January 25th, 1944, at 8 o'clock p.m. in the Council Chamber.

### ROOSEVELT STATES

#### 1944 VICTORY YEAR

London—President Roosevelt, in a telegram to the French consultative committee in North Africa said "1944 will be the year of victory." Radio France of Algiers said last week, Roosevelt's telegram was in reply to one sent him by the assembly.

"I share your hope and your confidence," the President said, "1944 will be the year of victory which will make it possible for France and the oppressed nations to breathe again the air of liberty."

## War Service League Gives Successful Report

The ladies of the Wainwright War Service League wish to thank everyone for their kind support given them in Donations and helping to buy tickets on their Raffles which enabled them to send \$7,800 cigarettes, 80 Xmas boxes to our boys overseas; also \$25.00 to Aid to Russia Fund; \$25.00 Chinese War Relief Fund; \$25.00 Local Branch of the Red Cross; \$25.00 Merchant Marine; \$75.00 Local Branch of the Red Cross for Prisoner War Boxes.

Eight quilts were made and given to our Local Branch of the Red Cross. All the Officers are remaining in their same office for the ensuing year.

The War Service League has received many fine letters from the boys and girls in uniform, thanking them for parcels and cigarettes and especially for being remembered from their Home Town. Thanks again everyone.

## Explains Drop In U.F.A. Membership

Calgary—Shortage of farm labor was given by Robert Gardiner, president of the United Farmers of Alberta, as an explanation for a large part of the drop of 2,283 in U.F.A. membership during 1943 as compared with 1942, at the U.F.A. convention last week.

The membership totalled 5,722 at the end of 1943 as against 8,005 in the previous year.

The directors who did a large part of the organization work in normal years, were farmers and had been unable to obtain adequate help to operate their farms. Thus they had not been free to canvas for membership, Mr. Gardiner said.

He suggested every member, on returning home from the convention, study ways and means of assisting the directors in building up the organization.

### WEDDING BELLS

A quiet but pretty wedding was solemnized at the United Church Parsonage on Tuesday, Jan. 18, when Miss Brenda Belton of Jarrow, became the bride of Mr. Edward Ronjom also of Jarrow; Rev. A. D. Richard officiated at the marriage ceremony.

## Safe Light For Shell Inspection

The light-piping properties of "Lucite", originally employed for (throat) lights and surgical instruments, have been utilized in the development of a new portable light used to inspect the inside casings of shells at Canadian war plants. A low-voltage lamp is mounted inside a special non-sparking handle attached to a solid rod of "Lucite". The transparent plastic rod does not conduct heat readily and therefore does not generate dangerous temperatures in areas where high explosives are stored; it gives concentrated, shadowless illumination, is light in weight and virtually unbreakable.

## Suspends Sale of Beer In Alberta 'till Feb. 1

The sale of beer in practically every liquor store in Alberta has been suspended until the beginning of February, J. A. King, chairman of the Alberta Liquor Control Board, said last week in Edmonton. Where beer sales have been suspended they will be resumed on Feb. 1.

Reason for the suspension of sale is that quotas of beer that can be sold for the month have been reached.

Mr. King said that reductions in beer quotas for January, February and March had to be made, in order to get back to the regular schedule of monthly deliveries by the brewers by April 1. A further reason for the quota reduction is that in November and December of last year, sales were in excess of the quota set.

"The proportionate reduction in the supply has been heavier for January than it will be for February or March," Mr. King said.

He also said it has been the custom to estimate a decrease in demand for beer in the colder months of the year to allow for a larger volume of sales in the warmer months.

## Appoint Supervisor For Metis Colonies

A. C. McCulley, Edmonton, formerly of Hanna, has been appointed by the provincial government as supervisor of Metis affairs. Hon. Dr. W. W. Cross, minister of health and public welfare, announced on Wednesday. The new appointee has been named to a post left vacant by the death of F. J. Buck.

Mr. McCulley, who was formerly employed by the government for a period of about six years, resigned from the service last August. He started work with the department of municipal affairs, and later was with the special areas board.

In his new position, he will be in charge of seven Metis colonies in various parts of Northern Alberta.

Approximately one thousand applications are sent by troops every month to the Canadian Legion Educational Services for enrolment in the correspondence courses offered men at the front.

## Scientific Packaging Wages World Wide War

Modern warfare is scientific warfare and in its waging there is a place for the science of packaging as well as for the science of gunnery or electronics, writes Leonard L. Knott in the December issue of C-I-L Oval. For one thing, it has been found that packaging is an important part of the science of logistics which is simply the job of getting supplies where they are most needed in the quickest possible time. Getting the supplies there is one thing but it is equally essential that they get there in usable condition.

In the new packaging story, transparent cellulose film, converted by chemistry from Canada's forests, is performing many important protective tasks in addition to those for which it was originally designed. For example, a Toronto manufacturer uses "Cellophane" film to protect the fuses he makes for naval use. Countless other uses, less familiar, are on the secret list for the duration.

The outstanding peacetime contribution of this packaging material was in the protection of food and fundamentally it is still doing its biggest job in this field. If "Cellophane" were not available today, there would be increased spoilage and waste of perishable products at a time when the nation cannot afford to lose food value unnecessarily. Meat rationing has increased the use of fish and cheese, both of which are protected by moistureproof cellulose film. The increasingly important frozen food industry is dependent upon it and food preserved in this manner for both civilians and the Armed Forces is thus protected against dirt, germs, and handling, while remaining fresh and clearly visible. For protecting emergency rations, too, this film was a natural selection since it is simply performing in a more dramatic way, one of its essential peacetime functions.

## Ask Wage Order Be Withdrawn

Vancouver—A resolution asking withdrawal of the Dominion government's new wage control order was endorsed unanimously last night at a meeting of the Vancouver, New Westminster and district Trades and Labor Council at which four members of parliament, two of them Liberals, criticized the order.

The resolution suggested Percy Bengough, president of the Trades and Labor Congress of Canada, as a spokesman against the order and promised "to support him in any action he may recommend us to follow." It was declared the order was "in opposition to all basic principles of freedom and justice."

Howard Green (P.C., Vancouver South), James Sinclair (L., North Vancouver), G. G. McGeer (L., Vancouver Burrard) and Angus MacInnes (C.C.F., Vancouver East), said they would oppose the order while George Cruickshank (L., Fraser Valley) said "I am not making any definite promises but will do the best I can to see labor gets a square deal".

## Say Health Plan In Cost \$1 per Month

Ottawa—If and when a health insurance bill is adopted by parliament the contribution of the "man in the street" may not amount to more than \$1.00 per month, a spokesman for the federal health department said last night.

A finance committee now studying the bill, which may be submitted at the session of parliament opening on Jan. 27, has suggested simpler ways of obtaining contributions from the public, the spokesman said.

If the suggestion is accepted by the cabinet, the "contribution of the man in the street will be reduced considerably". The contribution might be as low as \$1.00 a month for a man and all his children under a prescribed age, possibly 16.

"The suggestions we have made are only tentative and it is up to the cabinet to decide whether they will be incorporated into the bill," the spokesman added.

### WAINWRIGHT C.C.F.

#### HOLD ANNUAL MEETING

At a meeting on Jan. 19 in the I.O. O.F. hall at Wainwright, the Wainwright C.C.F. held their first annual meeting.

M. D. Meade was elected president for 1944, O. Griffiths as secretary-treasurer, and L. A. Myggland as vice president.

Many things were discussed for the coming year, among them the provincial nominating convention for Wainwright to be held here on Saturday, Feb. 12th.

## Color Code Soles Pipe Line Puzzles

No home piping system can begin to compare with the confusing maze of pipes in a modern factory where, in case of emergency, it is highly important to be able to know instantly just what material any one pipe carries or what any one valve controls, relates Ted Sanderson in the December issue of C-I-L Oval.

Imagine an accident that breaks one of a dozen or more pipes in one part of a building and sets free a flow of colorless liquid. Is it harmless water or a dangerous chemical? And what valve controls the part of the building will turn off the flow from that particular pipe? Answers to these questions can be known instantly if the pipes are painted with identifying colors under the uniform system that has been developed. Pipes carrying fire-fighting materials are painted in solid red or with bands of red at frequent intervals. If a pipe is painted yellow, the material is an acid, an oil or a gas—and the yellow valve will turn it off. A light blue distinguishes the drinking water pipe from the river water pipe which is painted green, and so on. When a pipe filter goes to work on the piping system, the danger of opening the wrong line by mistake is avoided.

The Canadian Red Cross is Ready!

## Women Proving Another Big Help

OTTAWA—The secrecy wraps were taken off another important job being done by the Canadian Women's Army Corps last week. It has to do with a gadget known as the "kinetheodolite" — a device to record the accuracy of anti-aircraft shell bursts — and the girls at the controls have got the nickname "Kine-Cwacs". They thus become among the few people who can criticize the marksmanship of an artilleryman and get away with it. Kinetheodolite is not used in actual battle, but the instrument comes into service during practice shoots as the best method of grading marksmanship.

A "sergeant" with four legs is Montreal's boast. He's Sgt. "Musie" Black, a quizzical Manchester terrier owned by Sgt. Major Bill Black, Bandmaster of the District Depot band. "Musie" is a duly accredited soldier complete with paw printed identification card and always marches in front of the band on parades. Like most sergeants, his bark is worse than his bite.

Reality in training has reached a new high at Camp Borden. Full scale models of a familiar type of small building commonly found some distance to the rear of country dwellings have been constructed at the Army's School of Military Hygiene. They're used in teaching the most modern and efficient methods of construction and drainage of sanitary facilities in the field.

Mr. and Mrs. Canada have done a record-breaking job in seeing that their sons and daughters Overseas have a merry Christmas.

The Veterans Guard of Canada is now being administered by a directorate. Its chief is Col. Herbert Rutland Alley, O.B.E. He has been Officer Administering the Corps since August, 1940. Col. Alley is well-known to veterans. From 1937 to 1939 he was president of the Ontario Command of the Canadian Legion.

There have been no Canadian casualties in connection with a reported sinking of a vessel by enemy action in the Mediterranean recently, according to National Defence Headquarters. The reassurance was issued in response to enquiries following a report that a number of Canadian nurses had been aboard a vessel reported sunk by aerial torpedoing and bombing in that theatre of war.

## Two Aircraft Transport Million Letters Overseas

Winnipeg, January — Carrying nearly a million letters and 527 pounds of freight for the forces overseas, two big Lancaster transport planes operated by Trans-Canada Air Lines in the Canadian Government trans-Atlantic service broke records early this month. The previous record for the Montreal-Great Britain flight, set last November, was 11 hours and 25 minutes. One of the transports operated by T.C.A. made the journey in 11 hours and 14 minutes and the other took only two minutes longer. The total mail load weighed 10,731 pounds. It was consigned to men women overseas in Canada's armed forces. Captains of the two planes were T.C.A. veterans Capt. M. B. Barclay and Capt. G. B. Lothian. No attempt was made to create a new record. Credit is given to favorable weather.

## Rebekahs Hold Military Whist

A pleasant evening was spent in the Odd fellow's hall last Tuesday evening when the members of Adeline Rebekah Lodge sponsored a Military Whist drive in honor of their founder, Thomas Wilder.

There was a large crowd in attendance with nineteen tables in play. Mr. Lorne Mitchell acted as master of ceremonies and first prize winners for the evening were Mesdames L. Stuart, J. Donaldson, J. Robinson and H. P. Schlitt, and second prizes going to Mrs. W. J. Huntingford, Mrs. T. Lissimore, Spr. N. A. Ford and Cpl. Ettewell.

After cards a tasty lunch was served by the ladies to all those present.

SAVE YOUR SCRAP RUBBER

## Million Tons of Trouble For Our Enemies

By the middle of October Canada had produced its millionth ton of war chemicals and explosives, according to an editorial in the October issue of C-I-L Oval. About three-quarters of the total comprises chemicals required for the manufacture of military high explosives, tracer bullet compounds and smoke screen material, as well as for use by other war industries.

A million tons of chemicals and explosives may seem a lot but here are a few figures to suggest how quickly it can be used up by our fighting men. Out of one ton of TNT we could fill; Almost three torpedoes or seven depth charges, or four 1,000 pound aerial bombs, or two thousand 25-pound shells, and it would take almost twice as much cordite to hurl those shells onto enemy targets. Approximately 250 anti-tank mines would use up a ton of TNT, whereas the same quantity of amatol, a mixture of TNT and ammonium nitrate, would load about sixty howitzer shells which would require almost a similar amount of cordite to speed them on their way. A 305 rifle or machine-gun cartridge is loaded with about one-tenth of an ounce of smokeless powder as the propellant for the bullet.

## Coal a Storehouse Of Vital Chemicals

Known to most of us as fuel coal is scarcely appreciated, except by a few as an almost inexhaustible storehouse of chemicals from which are synthesized many materials essential both in peace and war; according to an article entitled "Coal Black Magic" in C-I-L Oval for December. Coal, one of Nature's most common raw materials, is potentially richer in rubbers than all the islands of the East; more bountiful in fibres than all the Japanese silkworms; wealthier in colours than the rainbow; and abounding in curative medicinals. In ordinary bituminous coal there are constituents of explosives for bombs, shells and torpedoes, plastics of many types including those of crystal clarity, solvents, food preservatives, insecticides, fertilizers, lacquers and hundreds of other products.

"Made from coal" really means that one of several intermediates used in making a product is in turn made from one or more of the several derivatives of coal. Coal is chemically utilized to make neoprene, a material containing most of rubber's desirable qualities and, in addition, having superior properties of its own. Nylon is another versatile member of coal's family. The pharmaceutical industry is to a large degree predicated upon coal-tar chemicals; the new sulphur drugs are an outstanding example but perhaps the commonest of coal-derived medicinals is "aspirin", acetylsalicylic acid. Coal-derived plastics are replacing tons of precious crude rubber; for example, for coating Army raincoats, hospital sheeting electric wiring insulation, for hand grenades, gunstocks and radio antennae on aircraft.

The list of products partially or wholly derivable from coal, and essential in our daily life, includes anti-freeze, lacquers and synthetic enamels, water-repellent textile finishes, flame-proofing agents for the treatment of work clothing, fluids for hydraulic brakes and many other diversified materials.

Doctors serving with the Canadian Army will receive a Medical Journal which is being produced by the Department of Pensions and National Health and the Medical Services of Navy, Army and Air Force, to keep them informed of trends and advances in medical science.

A film has been produced for troops in Canada and Overseas in which there is a collection of songs made famous in this war.

### COUPON CALENDAR

JANUARY 20:  
Butter — Coupons 46 and 47  
Meat — Coupons pair 35

JANUARY 27:  
Tea or Coffee — Coupons 28 and 29  
Meat — Coupons pair 36

EXPIRY DATES:  
Butter coupons Nos. 42, 43, 44, 45 expire January 31, 1944.  
Meat coupons pair 30, 31, 32, 33, 34, expire January 31, 1944.

## Industrial Board Collects \$30,818

During the last year, the Alberta Board of Industrial Relations collected \$30,818 for 1,812 Edmonton employees, it was announced Wednesday by Premier Ernest Manning, minister of trade and industry. The sum represents back wages owed to the workers, and compares with \$24,372 collected for 1,275 employees in 1942.

In Edmonton during last December \$2,870 was collected for 126 employees. A total of 624 inspections of industries and places of business were made by board officers during the month. Employees affected by the inspections numbered 3,454.

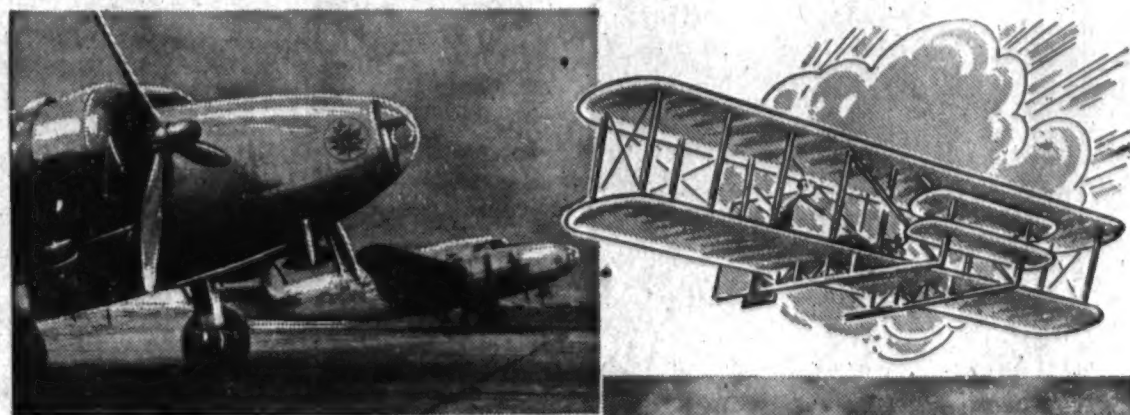

In the two cities of Edmonton and Calgary, back wages collected for employees in 1943 amounted to \$38,655. More than 2,200 employees benefited by the collections.

### ONTARIO'S LIBERALS PLEDGE GOV. "QUALIFIED SUPPORT"

Toronto—The 15 Liberal members of the Ontario legislature will give "qualified support" to Premier Drew's Progressive Conservative government which holds 38 of the 90 house seats, it was stated today by W. L. Miller of Bruce Mines, Liberal M.P.P. for Algoma-Manitoulin.

Mr. Miller said in an interview that a caucus yesterday attended by 65 Liberal M.P.P.'s and Liberal candidates defeated in last year's provincial election, decided they would support any legislation they considered to be in the best interests of the province. Support would be given such legislation whether it was offered by the government or the C.C.F. opposition, which holds 34 seats.

BUY WAR BONDS & STAMPS

## Forty Years of Flying

On December 17, 1903, man flew for the first time in history, in a heavier than air power-driven flying machine. The artist's drawing shows the Wright Brothers' famous Kitty Hawk. In the forty years since it soared into the air, flying has made tremendous strides.

The first flight in Canada took place at Baddeck, N.S., when J. A. D. McCurdy flew the Silver Dart on February 23, 1909. Now, over routes totalling nearly 5,000 miles, the planes of Trans-Canada Air Lines cover more than 8,000,000 miles a year, carrying passengers, mails and express.

Two of the fleet are shown to the left of the layout. On the right is one of the big Lancasters flown by T.C.A. in the Dominion government's wartime trans-Atlantic service. Passengers on urgent war business, cargo of strategic importance, mails to and from the Canadian troops overseas, are carried across the ocean. The skies are witness to the miraculous fulfilment of the dreams of Orville and Wilbur Wright two score years ago.

WAINWRIGHT, WEDNESDAY, JANUARY 26th, 1944

## Post-War Immigration Advocated for Canada

Ottawa, January. — "Canada must  
 return to a more positive policy on  
 immigration as compared with the  
 negative one that has been dominant  
 for some time," said J. S. McGowan,  
 director of colonization and agri-  
 culture, Canadian National Railways,  
 Montreal, in an address in Ottawa.

"We must realize that immigrants  
 are assets and not liabilities,"  
 McGowan went on to say that he  
 was convinced that "if our present  
 population were doubled, it would  
 give us a higher standard of living,  
 provide us with goods and services at  
 lower cost, and increase the markets  
 for all our products."

He was not in favor of a policy of  
 free and unrestricted immigration;  
 there should always be selection, he  
 said; but he thought a more liberal  
 policy should always be established.  
 "There should be at all times a  
 steady infiltration of people for our  
 urban areas, particularly of those  
 coming to friends or relatives, and  
 literacy."

## Canning Sugar Amounts Now Set

OTTAWA—The prices board an-  
 nounced last week that sugar for  
 1944 home canning will be made av-  
 ailable through 10 spare "F" cou-  
 pons in ration book 3 now being used  
 by consumers.

The board said consumers will thus  
 be provided with a standard allot-  
 ment of 10 pounds of sugar per per-  
 son, for home canning purposes, but  
 households wishing to go more can-  
 ning will be able to supplement this  
 amount by using their preserves cou-  
 pons for the purchase of sugar.

The special sugar coupons will be  
 exchangeable for preserves coupons

## Premier Denies Prov.

### Debt Being Refunded

Premier Ernest Manning on Fri-  
 day denied a report that the Alberta  
 government had approved a 3 1/2 per  
 cent basis for refunding the pro-  
 vince's public debt of approxi-  
 mately \$120,000,000.

While negotiations and conferences  
 have taken place regarding refund-  
 ing the public debt, the premier said  
 that no plan on the basis of 3 1/2 per  
 cent had been approved.

The Financial Post of Toronto car-  
 ried the story that the Alberta gov-  
 ernment had approved a rate of 3 1/2  
 per cent for a refunding of the pro-  
 vincial debt.

**NUTS BY THE MILLION  
 BUT NOT FOR TABLE**

Montreal, January. — Maintaining  
 80,500 miles of track throughout the  
 Canadian National System is a size-  
 able task and requires a working  
 force of 12,634 sectionmen to carry  
 out this important job. For this  
 task, about 37,500,000 nuts and  
 bolts are required to fasten splice  
 bars at track joints and sectionmen  
 devote at least one day each month  
 to tightening these bolts. When new  
 rail is laid, these workers thoroughly  
 oil all fastenings at the joints to keep  
 them from "freezing", which means  
 to prevent corrosion and to make for  
 easy servicing throughout the life of  
 the rail. In addition, all splice bars  
 and fastenings receive an oil bath  
 once or twice a year.

A special permit was recently is-  
 sued so that non-alloy steel could be  
 diverted from war channels to make  
 500,000 safety razor blades for the  
 Canadian Army.

## SEAGULLS CHALLENGE

### TRANS-CANADA PLANE

New York, January. — Recently a  
 Trans-Canada Air Lines plane, after  
 having been grounded for three days  
 by bad weather, took off at LaGuardia  
 Field, en route to Toronto, and  
 immediately flew into a flock of  
 about 100 seagulls. The pilot, Capt.  
 W. G. Avison, landed the plane safely  
 and discovered that the de-icing  
 equipment on the right wing had  
 been damaged by some birds the  
 plane had killed. On the following  
 day, an anonymous bird lover called  
 Bill Munroe, T.C.A. station manager  
 at LaGuardia Field, and complained  
 about the injury to the seagulls and  
 suggested that something be done to  
 prevent planes hitting birds.

## RAKE PASSENGERS

### IN EXPRESS CAR

Montreal, January. — Albin mink  
 are scarce, seldom seen by trappers  
 and rarely in railway transit from  
 one place to another. However, the  
 other day, three of these valuable  
 fur-bearing animals, pure white, and  
 with pink eyes, arrived in an express  
 car attached to the Canadian Nation-  
 al Railways' train from Toronto,  
 having originally come from Shallow  
 Lake, near Owen Sound. They were  
 going to Lachute, Que.

Canadian soldiers overseas receiv-  
 ed 20,906,715 cigarettes during the  
 holiday season. Almost all were sup-  
 plied by civilian organizations.

Regular Army trucks are now be-  
 ing equipped with new detachable fit-  
 tings that can convert them into am-  
 bulances with a minimum of delay.  
 The fittings are harness-like in ap-  
 pearance and stretchers are slung  
 from them.

**SEEDTIME  
 and  
 HARVEST**

For two years, Dominion and Pro-  
 vincial Government officials have  
 announced definite production objec-  
 tives in plenty of time for farmers to  
 plan their own programmes. The  
 1944 objectives, made public over a  
 month ago, have had time to "soak  
 in." Will they be met?

In looking over the published  
 figures, I, for one, find it difficult to  
 distinguish between hopes and  
 expectations. The Dominion-Pro-  
 vincial Conference favoured no  
 increase in wheat acreage; but in  
 view of the relation between the  
 price of wheat and other farm pro-  
 duces, and the discontinuance of  
 wheat acreage reduction payments,  
 a considerable increase is probable.

The figures published for oil seed  
 crops are puzzling when considered  
 in the light of Mr. Gardiner's  
 statement, as quoted in the "Farm  
 News From Crop Sheet, No. 424,"  
 which reads in part, "Of special  
 products, such as oil producing  
 plants (crops) ... it is hoped that  
 some improvement in quantity will  
 be accomplished." But the 1944  
 "objective" for oil seed crops is  
 given, on the same page, as 2,005,700  
 acres—only 66% of the 1943 acre-  
 age! For what it is worth, we offer  
 the opinion that the objective will  
 win and the Minister's hope will  
 lose, unless the price for flaxseed is  
 fixed at a very attractive level.

The farmer will be governed very  
 largely by what will pay and by  
 what the United Nations need. He  
 has, to some extent, sacrificed the  
 former for the latter; but can only  
 go so far. We mustn't expect to  
 get flax without paying what it costs.

## TENDERS WANTED

IN THE MATTER OF THE ES-  
 TATE OF THOMAS JOHNS, LATE  
 OF THE TOWN OF WAINWRIGHT  
 ALBERTA; DECEASED

SEALED TENDERS will be received  
 at the office of M. G. CARDELL,  
 Solicitor for J. N. Thom Esq. of the  
 Court-House, Edmonton, Alberta,  
 Public Administrator, and the Ad-  
 ministrator of the above Estate;  
 such Tenders to be delivered at the  
 Office of the said M. G. Cardell,  
 prior to the 9th day of February AD  
 1944, for LOT SEVEN (7) in BLOCK  
 THIRTY-TWO (32) Plan 6445 V,  
 WAINWRIGHT and the Dwelling  
 House thereon;

The highest or any other tender  
 not necessarily accepted.

DATED AT WAINWRIGHT, Al-  
 berta, this 4th day of January AD  
 1944

M. G. CARDELL,  
 Solicitor for the Administrator  
 (Office in Billings Block)

Queen Hall — Proprietor  
 CORNER OF PINE AVE. & MAIN ST.

The precipitation which occurred  
 last fall over the prairies was de-  
 cidedly less than normal, which  
 means that the forthcoming crop to  
 be seeded will have less moisture re-  
 serves available than usual. This, in  
 turn, means that if an average crop  
 is to be enjoyed, considerably better  
 than normal rains will have to fall  
 during the coming summer months.  
 The odds, of course, are against this  
 occurring.

The fall rains for Alberta were 74  
 percent, giving a figure for the three  
 provinces together, weighted for  
 wheat acreage, of 82 percent of nor-  
 mal.

The map shows that there is a  
 large area in southern Alberta and  
 southwestern Saskatchewan that is  
 badly lacking in reserve moisture,  
 that there are large areas in each  
 of the provinces which have less than  
 normal reserves, and that there are  
 but few districts which enjoy aver-  
 age or better than average reserves  
 of moisture.

### Farm Notes

**SELECTING THE BREEDERS**  
(Experimental Farm News)

The aim in selecting poultry breeders is to choose parent birds which will produce offspring which will fulfill two purposes: (1) Be economically profitable, and (2) Be representative of their breed. To fulfill the first purpose they should be healthy and vigorous, and good layers of standard-sized eggs. For the second objective they should approach a size, type and colour of the breed they represent as closely as possible, states Dr. S. S. Munro, Poultry Division, Central Experimental Farm, Ottawa.

In the absence of individual and family records of production, the emphasis in selection should be placed on general signs of health such as good body weight, bright clear eye, clean head free from heavy wrinkles and bright red combs and wattles. The back should be broad, well carried and rounded. Long-legged knock-kneed and narrow-breasted individuals should be avoided. As a general rule the shorter the shank in birds of equal weight the better the market quality of the dressed carcasses. However, very short shanked individuals should be ignored. Particular attention should be paid to these characteristics in the male as he provides half the inherited characteristics of the next generation.

The birds should be of good body weight particularly as there is a tendency for most flocks to average less than the standard for the breed. For example yearling: Barred Rock hens should weigh 7½ lb. and pullets 6 lb. while the corresponding weights for Leghorns are 4½ and 4 lb. respectively. Many flocks are lighter than these weights.

Any birds showing either fading of eye colour from bay to gray or tumors under the skin should not be used for breeding. Where family histories of egg production are known selection should be from the best laying families but individual records of production are of very little value. It is better to choose a sound healthy bird from an unrecorded parent rather than an unhealthy or poor type bird from a 200 eggger.

Egg size is strongly inherited and every effort should be made to select breeders from dams laying eggs which weigh about 25 ounces per dozen. If less than this, too many of

the progeny are likely to lay small eggs (less than 24 ounces per dozen) while if larger there is a tendency to produce overly large eggs which do not fit well into egg crates or cartons.

### Oats Do Not

**Always Grow**

Reports of poor germination of oats sent for test continue to reach this office. A report of three samples from the Hughenden district was seen recently. All samples appeared in good condition and weighed over forty pounds per bushel. Germinations recorded were - 18%, 32% and 85%. Judging by reports covering the whole of this district of superior vision the condition represented by these tests is typical. About half the samples are quite satisfactory for use for seed, germinating 80% and up. Of the remainder, about half germinate between 30% - 55% and the rest are almost a complete failure.

Some farmers are going to take a chance on their oats growing, but if they do, it is a fifty-fifty chance that the field will be a failure. Don't get caught on anything so simple. Send in your sample and make sure; but do it now. Seed testing agencies are busy, but they will be a whole lot busier later on. Tests may be arranged through your local elevator agents or send samples and 50 to Plant Products Division, Calgary.

### World of Wheat

Director, Research Department,  
Searle Grain Company, Ltd.

### MOISTURE RESERVES LACKING

No one can foresee the future. Confident forecasts often turn out to be wrong. In spite of this, however, farmers have to base their farming operations on the most intelligent forecasts they can make.

This coming crop will start out with less reserves of moisture than our prairies have had for many years past, for the reason that, with the exception of a few favoured areas, the fall rainfall which will be available for the coming crop was considerably lower than average. This means that if an average yield is to be obtained this next year, then better than average rains will have to occur during this coming summer. Then there is another point. We have already had two good crops running, and only occasionally in the last 60 years have the prairies produced three average crops in succession. This all means that the odds are against an average crop being produced from seed sown on stubble land this coming year. It looks, therefore, as if this would be a good year to summerfallow stubble fields wherever there is a lack of normal moisture and to use this coming summer to accumulate additional moisture and to kill weeds on such fields. However, each farmer must use his own discretion after noting the rain that fell last fall in his own district.

### ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Visible stocks of Canadian wheat on January 10th amounted to 354,814,388 bushels, a decline of approximately 5,700,000 bushels from the previous week's figures - Rumania's corn crop this year was not favourable as a whole, and it is not likely that there will be much surplus for export - The U.S. will purchase an additional 37 million bushels of Canadian wheat for live-stock feed.

Corn planting in South Africa has made good progress and it is probable that there will be a full acreage this season - Chile's wheat acreage for the 1943-1944 crop year is estimated at 2,040,000 acres, compared with 1,845,000 acres last year.

### HEALTH

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

"The double standard of morals which stigmatizes only women and allows the man who purchases his pleasure to go free would be abolished over night if woman would only fight for her rights as some of the early workers for woman's suffrage hoped. This alone would be an inestimable contribution toward the control of the most sinister of all menaces to health - the venereal diseases because the equally high moral standards on which woman would naturally insist would prevent the spread of disease. Here a public health principle and morality go hand in hand."

"Women in science, commerce and industry in the present war have proven, even in a man made world rampant with prejudice, that women frequently do man's work better than man. This has been true even in manual occupations. It is likely that as the war ends woman, newly aware of her own capacities, may be unwilling to relinquish her right to work, and that with this new and hard earned right and to work should be a right for men and women alike - may come a new feeling of responsibility which will lead to her further political activity. Woman's emergence into the field of political action should be of great significance in the sphere of social welfare and public health, and as more women become doctors, lawyers and executives, so we may well have more women in our legislature."

"Mrs. Emmeline Pankhurst, a great woman, who, in spite of her influence in precipitating a great political change - the enfranchisement of women - never got beyond a mere candidature for election to the British House of Commons, once said that the ideal Government would be a Government of women and doctors. There have been a good many doctors in Parliament and in cabinets - very few women so far. We need more women in office and it is no credit to the intelligence of our political parties that woman, who holds so great a stake in the future of our country in the lives of her children, should have little or no voice in the councils of the parties nor on the floors of our legislative assemblies. It is a wrong which men should right immediately. If it is not righted, women may well undertake to right it themselves."

## ADVERTISING

(A MESSAGE TO LOCAL MERCHANTS)

It is difficult for us to conceive of any single force which weighs so great an influence in our life as advertising - yet, how many people stop to consider what advertising really is.

Advertising is any means or method of communication of essential information as to where, when and how a commodity or service may be obtained - and WHY IT IS DESIRABLE.

Before people will buy, they must be 'sold.' They must make up their mind that they want the goods or service more than any other product their money will buy - more than they want to keep the money.

But how can a person find this magic formula of convincing prospects "WHY IT IS DESIRABLE"?

The answer lies in the product or service itself -

Why do people buy your product now?  
How do they use it?  
What does it do for them?  
Where do they use it?  
When do they use it?  
How often do they use it?

Take a pencil and write down the answers to these questions. Study your answers and you'll have the basis on which to build your advertising message.

Then your next job is to tell them "Why it is desirable" from their point of view. Remember, they are interested in their own wants and needs - not in a lot of adjectives making boastful claims. The public doesn't care how big your firm is or how old it is - they are interested in themselves, their health, their happiness, their family and their own beliefs.

Fix this thought in your mind: "WHY IT IS DESIRABLE FROM THEIR POINT OF VIEW" - and you will achieve success in your advertising.

Your local newspaper has proven that it is the most desirable medium for many sales messages - what about yours?

## Household Hints

## SUNDAYS FOR SUNDAY

Sugar may be scarce at your home these days. Perhaps your supply of other "sweets" is hardly worth mentioning. But the family still has a sweet tooth and you hear a constant call for dessert.

Here's a dessert that should please. No sugar is needed. The sun-dried custard is already sweetened and the crushed peppermint stick candy does its bit toward catering to that "sweet tooth".

**Chocolate Sundae Sauce—Custard**  
2 cups milk (not canned)  
1 package vanilla rennet powder  
Chocolate sauce  
Peppermint stick candy  
Set out 4 or 5 sherbet glasses. Warm the milk until just lukewarm (110 deg. F.), not hot. Test a drop on inside of wrist frequently. Remove from heat and immediately stir in the rennet powder until dissolved — not more than 1 minute. Pour at once, while still liquid, into the sherbet glasses and let stand at room temperature, without moving, for about 10 minutes, or until firm. Then place in refrigerator to chill.

Prepare a chocolate sauce by melting sweet milk chocolate in a double boiler and blending with enough cream to make a thick sauce consistency (about 1/2 cup cream to 3 ounces chocolate). Cool, and just before serving, pour a pool of chocolate sauce into the center of each rennet-custard. Then sprinkle crushed peppermint stick candy over the chocolate sauce, and serve immediately. Makes 4 or 5 servings.

## Percolated Decaffeinated Coffee

Use one rounding tablespoon all-purpose grind decaffeinated coffee for each cup (1/2 pint) of cold water. Pour cold water in pot or percolator. Set percolator, basket in pot, and put coffee in it. Cover. Let percolate slowly and gently 15 to 20 minutes, or longer than ordinary coffee to obtain full strength of decaffeinated coffee. (For a four-cup percolator, use 1/2 cup coffee.)

**Stuffed Egg Salad**  
6 hard-cooked eggs  
2 tablespoons mayonnaise  
1 teaspoon vinegar  
1/2 teaspoon salt

Cut eggs in half lengthwise, remove yolks, mash and blend with mayonnaise, vinegar, and salt. Refill whites. Chill. Serve on crisp lettuce with additional mayonnaise, if desired. Serves 6.

## Lemon Sauce

2 tablespoons cornstarch  
1 cup sugar  
Few grains of salt  
2 teaspoons grated lemon peel  
2 cups water  
1/2 cup lemon juice  
Blend cornstarch with sugar and salt. Add grated peel. Gradually mix in the water. Bring to boil and cook until thickened—about 5 minutes, stirring constantly. Serve hot over pudding.

## A Glamour Pie

A glamour pie is always a favorite happy dinner ending for the American family. But it rates top honors as a strategy when you are planning dessert for a dinner which has a main course that's skimpier than it would be, if you weren't balancing an equation in ration arithmetic. It's good tactics, too, to co-star the family's favorite pie with decaffeinated coffee so that everyone can relax taut nerves over sociable extra cups without pillow tossing later on. If you are serving a two-crust pie, be sure to time your oven carefully because thorough baking is a first essential to its success.

If shortening is a problem when you're making pie crust, you can take your cue from the pastry chef, who considers chicken fat a great delicacy for fine, flaky crust. Strain the fat and chill it thoroughly, and keep it until needed, in the refrigerator. Use like any other fat when making pie crust.

If you garnish a one-crust pie with a meringue, remember to cool it slowly after browning. Quick chilling makes it shrivel and shrink unattractively. When eggs are scarce and high, you will find ready-to-serve cereal an appetizing topping for a one-crust pie. Slices of fresh fruit simmered in syrup are good on many cream and chiffon pies, and frosting can be used instead of whipped cream on cream pies. You will find this Mocha Cream Pie topped with a frosting flavored with decaffeinated coffee a sure favorite. Always be sure to give decaffeinated coffee a little extra "perking" to bring out its rich coffee flavor. The frosting for the mocha pie should be about the consistency of mashed potato.

### EDGERTON

The 128th Victory Wheel draw was won by Geo. Sawyer with No. 4.

Two Rinks of Edgerton Curlers, skipped by P. S. Fawcett and J. F. Gilmour, journeyed to Paradise Valley last Monday. They were very hospitably entertained and a really enjoyable evening was spent.

Mr. Alf. Challenger was a city visitor.

Mrs. Dinmore has been visiting relatives here.

Edgerton hockey boys went to Chauvin Wednesday and Sunday and still weren't able to beat the Chauvinites.

Mr. and Mrs. Ecklund took Beverly to Castor for medical care.

Mrs. G. Phillips was a visitor to the city.

The infant daughter of Mr. and Mrs. E. Boomhower passed away after a very brief sickness and was buried at Edgerton Saturday, Rev. R. Clegg officiating.

The Annual Meeting of the local School Board and Ratepayers took place in the secretary's office Saturday. Mr. A. E. Challenger was elected to the board in place of Mr. R. E. Stratton. A delegation has been arranged together with one from the Board of Trade to meet the Wainwright School Divisional Board next Friday with a view to getting more accommodation at the school and more educational facilities.

Mrs. Montgomery was taken to Provost hospital Saturday for medical aid.

St. Mary's W.A. held their annual meeting Thursday at the home of Mrs. E. Evans. The following officers were elected: Pres., Mrs. P. S. Fawcett; Vice-pres., Mrs. J. F. Gilmour; Sec., Mrs. F. F. Mitchell; Treas., Mrs. R. C. Reed.

Mrs. Jimmy Miles was a city tripper.

The Edgerton Curling Club Bonspiel is arranged for February 22, 23 and 24.

Ernestine Wallis left Saturday to spend the week end at Irma.

Another batch of cigarettes is being sent to the Boys Overseas this week. The Ladies' Curling Club donated \$10.00 to this worthy cause.

Percy Wolff was a visitor here for a few days.

Mr. and Mrs. Tranmer and Mrs. Shaw went to the city by car; Dave traded cars while up there.

### GREENSHIELDS

Miss Marcella Plater is home for a month's vacation.

Mrs. Martin Daniels left for Vancouver last week to rejoin her husband who is stationed there.

The successful moving of a large barn by Rufus Carl and a large house by Mr. Alex Plater was accomplished this week by a group of local residents with the use of tractors.

Mrs. L. Beasley is in charge of the Merrick home while Mr. and Mrs. Merrick are in Edmonton.

Rev. Richard held church service in the school on Sunday.

Mr. Hans F. Buser was a tripper to Edmonton over the week end.

We are pleased to hear that Mrs. H. Merrick is progressing favorably after her recent operation in Edmonton.

### HEATH

Our hockey team played a game with Bligo on Saturday and tied the score at 1-1.

The Community Club held their annual meeting on Friday evening to begin rehearsal for their annual play. The young people went on from the meeting to the whist drive and dance held at the Aspen school by the Aspen Red Cross Group.

Mrs. M. Chynoweth is visiting Mrs. W. Lyle of Wainwright.

Mr. Ted Mosley has a new house-keeper getting ready for spring, on account of the mild weather perhaps!

Mrs. J. Hughes' brother was a guest at her home during the past week.

Mr. L. W. Davis is preparing to move a house into Wainwright, and hopes to take up residence there later on.

### SYDENHAM

The monthly meeting of Sydenham Victory Club was held on January 13th at the home of Mrs. LeBlanc, with the president, Mrs. LeBlanc, presiding. Seven members were present and one visitor.

The gift of the month, donated by Mrs. F. Waite, was won by Mrs. J. Veitch. A guessing contest was won by Mrs. F. Church.

The tapestry and velvet quilt was raffled at Sydenham Christmas concert on Dec. 22nd, and was won by Mrs. Robt. Moffatt of Gerald district. Tickets sold on this quilt amounted to \$65.26.

Lunch was served at the meeting by Mrs. A. Woodward and Mrs. J. Veitch.

### WHITE CLOUD

Keith Babb, Henry LaVerne and Andrew Bisson spent last week in the city.

We hear that Pte. Ross Myer was to be married the 19th, he has been overseas for some time.

Miss Currie entertained a group of youngsters last Friday.

M.P. Murray Treffry visited at the Treffry home before going to Consort to visit his family on his leave.

Services are still held at the Orange Hall this nice weather.

Miss Currie spent Tuesday evening at the home of Mr. and Mrs. E. Knott.

Mrs. E. Rasmussen and little daughter, visited Tuesday afternoon in the district.

A new medical research group has been formed for the examination of methods of treatment of wounded Canadians, to improve healing techniques. Members of the group will follow wounded Canadians from front-line to base hospital, checking on treatment all the way.

The Pictou Highlanders have 'adopted' a little crippled girl in eastern Canada, and are paying for expert medical attention in an effort to cure the affliction that has injured her legs.

**BRIGHTEN THE MEALS WITH BISCUITS**

**MAGIC'S ORANGE MARMALADE BISCUITS**

3 cups sifted flour 1 egg  
1/4 tsp. salt 1/4 cup milk  
4 tspns. shortening 1/4 cup orange marmalade  
4 tspns. Magic Baking Powder

Mix dry ingredients together. Cut in shortening until mixed. Beat egg slightly in measuring cup; add milk and marmalade to make 1/4 cup and add to dry mixture. Roll out about 1/4 inch thick; cut with heated biscuit cutter. Top each with little marmalade; bake in hot oven (425°F.) about 15 minutes. Makes 18.

## Travel By Bus

Here's how you can help with our Nation's Transportation problem:

1. Travel on Tuesdays and Thursdays — instead of on crowded week-ends.
2. Avoid traveling on holidays, or during rush seasons.
3. If you are sometimes inconvenienced, smile it off as a contribution to winning the war.
4. Consult your Agent or Driver for travel information.

## NEWS & VIEWS OF TOWN AND DISTRICT

BORN—To Mr. and Mrs. S. M. Ward of Wainwright, at the Wainwright municipal hospital on January 22nd, a girl.

BORN—To Mr. and Mrs. J. Eason of Wainwright, at the Wainwright municipal hospital on January 22nd, a girl.

Mrs. E. Ganderton and daughter Mona left on Monday morning's train for Vancouver and other points at the coast for a holiday.

The lack of blank cartridges forced discontinuance of use of the old 12-pound noon signal gun in Halifax. The gun was used in the Boer War.

Mr. H. A. Koch and Rib Bond motored to the city on Tuesday on business.

Mrs. R. I. Bond went to the city on Saturday last where she is having medical treatment.

Miss Audrey Symes of Aurburndale is spending a few days visiting with her grandparents, Mr. and Mrs. E. C. Symes in town.

When space permits, ordinary mail will also be carried in addition to regular air mail, in the new R.C.A.F. T.C.A. Overseas mail service.

We are sorry to report Mr. Dave McClelland of Gilt Edge as a patient at the hospital and wish him a speedy recovery.

By ministerial order all of Townships 41 in ranges 4, 5, and 6 have been withdrawn from the M. D. Wainwright 392 and added to M. D. of Provost 362. According to the Alberta Gazette.

Stage Door Canteen in New York is still inviolate to servicemen. None of the feminine members of the armed services are allowed inside.

Geo. Clark spent a few days in Edmonton on business last week.

Miss L. Mahay was out of school for a few days last week suffering an attack of flu. Mrs. D. C. Hume relieved during her absence.

Hundreds of women now serving with the Canadian Women's Army Corps, will be fitted to enter specialized industry after the war as a direct result of their army training.

Miss Mae Pencock who has completed her nurses training in the University Hospital is home for a short visit with her parents, prior to returning to the staff, Feb. 1st.

Mr. and Mrs. G. G. Pybus of Carstairs, (formerly of Wainwright) received word last week of the death of their son Gordon, overseas.

Mr. and Mrs. Geo. Clark are enjoying a short holiday with their daughter Velma, who has completed her nurses training at the University Hospital in Edmonton and plans to take a position on the staff there the first of the month.

Constable Ray Francis, R.C.M.P. renewed acquaintances in town last week on a short holiday from Norman Wells where he is stationed.

Mrs. F. E. McLeod was in the city for a few days last week on business.

Roy Reynolds was home over the week-end on a short visit with his parents.

Suitable Canadian Forestry Corps personnel who have returned to Canada are being afforded the opportunity of remustering into other services for Overseas duty.

Miss Berg a former nurse at the local hospital paid a visit in town last week for a day. Miss Berg is nursing up north at Norman Wells, and likes it there very much.

Mrs. Dave Dundas was here from Edmonton for a few days visiting with her daughters, Mrs. Geoff Taylor and Mrs. J. Howes.

Members of the Canadian Women's Army Corps may now carry their belongings in a suitcase rather than a kitbag when going on leave. It will enable them to have unwrinkled, pressed clothing to wear at the end of their trip.

Mr. and Mrs. Geo. Symes motored to the city last week to visit relatives there.

Miss Ruth Nyberg had as her guest over the week-end, her brother Carl who is attending University in Edmonton.

Word has been received from Military District No. 13 that Harvey R. Cook formerly a carpenter in town has enlisted in the army.

Mr. and Mrs. Aldous Kent of Aurburndale left on Sunday's flier for a short holiday at the coast visiting relatives and friends.

Soldiers temporarily relieved of front-line duties in Italy are being taken on sight-seeing tours of points of interest by Auxiliary Service officers.

We are informed that Mr. Robt. Legacy has bought the Harvey Ward house on sixth avenue west and plans to make his home there.

A great factor in the maintenance of morale among the Canadian soldiers Overseas is the regular arrival of letters from home.

Miss Kathleen Rutherford R.N. has accepted a position on the nursing staff of a hospital at Vulcan.

Battle casualties in the Canadian Army in the Mediterranean area reported up to November 23, 1943, were 3,533 all ranks, National Defence Headquarters has announced.

The famed "Army Show" has been enlarged, and the cast split up into five units. These units are now Overseas entertaining troops in the United Kingdom.

Canadian Women's Army Corps personnel are now being trained as wireless operators for employment in fixed wireless stations.
